

Hilton Sorrento Palace

Travel with Purpose Highlights

Travel with Purpose is our strategy to advance our commitments to our people and planet and build more prosperous and resilient communities across the territories we serve. See examples of our strategy in action below!

- Single-use toiletries have been replaced with bulk dispensers in all our guest rooms.
- The hotel stimulates guests to explore the city by bike or e-bike.
- ESG Run: The hotel map features a thoughtfully designed running route that winds through picturesque green spaces and past notable historical landmarks, offering guests a refreshing way to connect with nature and local heritage while staying active.
- Sustainable Culinary Experiences: Offer farm-to-table cooking classes where guests can harvest ingredients from the vegetable garden and learn traditional recipes that incorporate our homegrown lemons, oranges, and olive oil.
- Eco-Tours: Organize guided tours of the garden, educating visitors on the history and tradition of citrus and olive cultivation in the region.
- Tree Planting Activities: Encourage guests to participate in planting or caring for trees in the garden to promote sustainability and leave a positive impact.
- Hilton Sorrento Palace has embraced the social initiative of Fondazione Villa Russiz: the charitable love for underprivileged children. Book your event at Hilton Sorrento Palace and for each bottle of wine sold, € 1,00 is donated to the Fondazione Villa Russiz.

325 guestrooms

24 Meeting Rooms

Sustainable Experience:

In partnership with Marevivo, join the dedicated beach cleaning team for a meaningful group experience that strengthens teamwork, environmental awareness, and community engagement. Together, you'll contribute to preserving coastal beauty while fostering a deeper connection to sustainability.
